

## PROJECTS FUNDED IN RESPONSE TO RFP FOR CRIMINAL JUSTICE RESEARCH INITIATIVES

| GRANTEE'S NAME                                      | AMOUNT             | PURPOSE OF GRANT   |
|---|--------------------|--|
| Public Health Management Corporation                | \$490,039          | To study whether integrating trained “Peer Recovery Specialists” into Philadelphia’s adult drug treatment court can help reduce recidivism and drug relapse.   |
| University of Washington                            | \$495,373          | To study a program that pairs post-release offenders in Washington State with medical professionals who advise them about medication assisted treatment in order to determine whether the intervention can help to reduce recidivism, relapse, and hospitalizations. |
| Trustees of the University of Pennsylvania          | \$329,060          | To fund a randomized controlled trial of an informational tool for public defenders that is designed to help reduce sentencing disparities.  |
| Family Service Agency of Santa Barbara              | \$498,524          | To study the adult holistic defense case management model and its use in Santa Barbara, California.  |
| Treatment Research Institute                        | \$499,617          | To develop and study a pre-booking police protocol that diverts substance-involved offenders in Philadelphia to treatment in lieu of arrest.   |
| The University of Chicago                           | \$199,367          | To develop and study a pre-booking police protocol that diverts narcotics-involved offenders in Chicago to treatment in lieu of arrest.  |
| Duke University                                     | \$339,516          | To study whether the use of Vivitrol, a medication assisted treatment for opioid use disorder, can help reduce recidivism among drug court participants in Wake County, North Carolina.  |
| Trustees of the University of Pennsylvania          | \$247,706          | To study the impact of the vertical defense representation model on case outcomes for clients in King County, Washington.  |
| University of Miami                                 | \$429,389          | To develop and study a multi-dimensional family therapy program for young adults in the Miami-Dade criminal drug court.  |
| Temple University                                   | \$302,020          | To develop and study a police diversion tool that can help direct people who are frequently involved with both the criminal justice and health care systems in Camden, New Jersey, to targeted services in the community.  |
| Washington University                               | \$361,572          | To study the Deferred Prosecution Programs of the prosecutor offices in Cook County, Illinois; Milwaukee County, Wisconsin; and the City of St. Louis, Missouri.   |
| Mathematica Policy Research, Inc.                   | \$999,922          | To fund a randomized controlled trial of the Bronx Freedom Fund, a low-cost, scalable alternative to pretrial detention, in order to assess the fund’s impact on misdemeanor convictions and recidivism.   |
| The Board of Trustees of the University of Illinois | \$1,760,785        | To fund a randomized controlled trial of Big Brothers Big Sisters of America’s community-based mentoring program for disadvantaged youth in order to determine whether the program helps to reduce crime and delinquency.  |
| Regents of the University of California             | \$1,637,106        | To fund a randomized controlled trial of a cognitive behavioral therapy program for individuals with mental illness who are involved in the criminal justice system.   |
| <b>Total</b>  | <b>\$8,589,996</b> |  |
